Re: Extension Request for responding to information request
Section 114 Letter Reference No. **CAA-02-2012-1469**

Dear Mr. Marabella:

The United States Environmental Protection Agency (EPA) Region 2 office, under the authority of Section 114 of the Clean Air Act, issued an information request letter (114 letter) to the AES Cayuga facility (now Cayuga Operating Company) referenced above. The letter with reference number CAA-02-2012-1469 was received on September 5, 2012.

The 114 letters require Cayuga Operating Company to submit information due 30 calendar days following September 5, 2012. On September 21, EPA received a letter from Mr. Marabella, requesting an extension due to bankruptcy and ownership transfer on Information Request Part A from October 5, 2012 to January 3, 2012, and an extension on Information Request Part B from November 4, 2012, to February 2, 2012.

EPA has reviewed your request for an extension and has determined that an additional 60 days is appropriate. Information Request Part A is due December 5, 2012, and Information Request Part B is due January 2, 2012. The length of time we approved relative to the various questions is based on how readily available the information is. For example, if the information is easily copied we expect the information to be provided in a more timely manner.

Generally, EPA is not inclined to give a further extension once one has been granted. Address any questions concerning this matter to Phillip Ritz, of my staff, at ritz.phillip@epa.gov.

Sincerely,

Kenneth Eng, Chief
Air Compliance Branch
